

Fit it & Forget it

A. O. Smith. **World's No. 1**
Manufacturer of Water Heaters.

AOSmith
Innovation has a name.

Fit it & Forget it

Frigid winters, kitchen area, loft installation, hard water. A. O. Smith electrical water heaters have been handling one challenge after another. Since the company's inception in 1874 in Milwaukee, US, avant-garde technology and energy saving solutions have been a key feature.

At A. O. Smith, innovation has a name and we are the world's number 1 manufacturer of water heaters, offering multiple features, energy efficiency and trusted service.

A LEGACY OF INTEGRITY AND INNOVATION

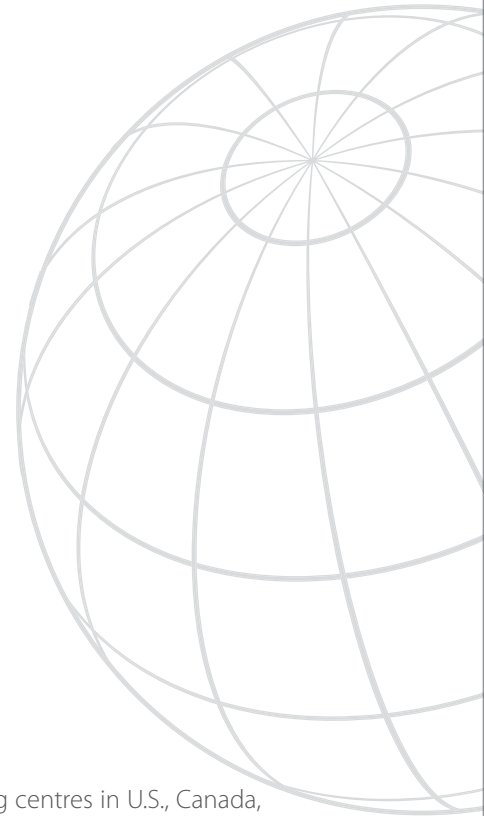

A. O. Smith Corporation, a name that has become synonymous with trust and excellence, has its roots in one man's dreams, Charles Jeremiah Smith. Headquartered in Milwaukee, Wisconsin, USA, A. O. Smith has become the global leader in the manufacturing and marketing of residential and commercial water heating and water treatment equipment.

The 142-year long legacy of innovative technology and energy-efficient solutions has resulted in an array of state-of-the-art products that have made their mark the world over.

GLOBAL PRESENCE. GLOBAL PERSPECTIVE.

A. O. Smith has manufacturing operations in the United States, Canada, Mexico, China, India and Europe and a sales and distribution network that covers over 60 countries around the globe.

Research and Development

The onus of research falls on the Corporate Technology Centre in Milwaukee. With engineering centres in U.S., Canada, China, Europe and India with 500 engineers and technicians, these facilities focus on designing, developing and testing new water heating technologies and products.

THE INDIAN STORY OF THE WORLD'S BEST WATER HEATERS

Growing in Leaps and Bounds

As a premium brand, A. O. Smith manufactures high-tech, energy-efficient water heaters and is known for its quick after-sales service.

In 2006, A. O. Smith became the first U.S. company to enter the residential water heater market in India. With a 76,000 sq. ft. manufacturing plant in the KIADB Industrial Area, Harohalli, Bengaluru in 2010, A. O. Smith added another 150,000 sq. ft. space in 2013.

BUILDING A SUPER BRAND

Making the A. O. Smith water heaters a Super Brand has taken focus, drive and honesty to consistently innovate and maintain the highest standards. While innovation is key, energy efficiency, consistent quality and fulfilling customer expectations are equally important.

Our hallmark is the technical expertise and high quality products that can be relied upon for life. With the longest warranties in the industry for our water heaters, once you 'Fit it', you can simply 'Forget it'.

Winning Accolades

World's No.1
Manufacturer of
Water Heater

Superbrand
Awarded by
Superbrands India
in 2014-2015

Product of the Year

SETTING BENCHMARKS

A. O. Smith is the undisputed World's No.1 water heater today, right from its classic invention, the Blue Diamond® glass-lining technology to its industry best 7-year warranty and Power of 1 service. Further, it has been certified with ISO 9001-2008 in recognition of its premium Quality Management System.

Blue Diamond® Glass Lining -
Maximum protection against hard water and corrosion

Glass-coated heating element
Prevents scale formation and extends the life of the heating element

Advanced Injected PUF
Ensures uniform insulation to prevent heat loss

Inlet Diffuser
Ensures minimal diffusion of cold water, supplying more hot water at any point in time

ABS Plastic Body
Has a tough rust-proof exterior that provides high impact resistance

ColourMatch System®
Allows you to match your water heater colour to the colours of the bathroom

Digital controls
Wireless Remote Control, Auto-On/Off Timers, Temperature Settings, Energy meter

7 YEARS WARRANTY ON TANK

Longer Warranties
7-year warranty on inner tank, up to 4 years* on extended warranty on heating element and 2 years comprehensive

Energy Saving
5-star rating from Bureau of Energy Efficiency [BEE]

POWER OF 1 SERVICE

Power of 1 Service
1 Hour Response,
1 Day Resolution,
1 Time Fix

Free Installation
Available in selected cities and products.

*Extended Warranty: Registration of Extended Warranty (1 year or 2 years) is valid if customer registers the product within 60 days of purchase. For more details log on to www.aosmithindia.com

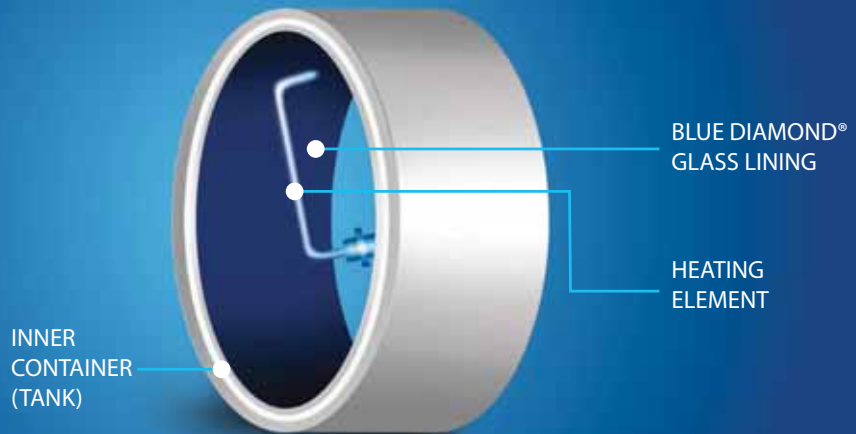

THE BLUE DIAMOND® STORY

A. O. Smith is credited with the invention of the glass-lined water heater tanks in 1936. After this, the next breakthrough was the **Blue Diamond®** technology in 2004. In this technology, a specially formulated glass frit is bonded to the steel through a complex process that is carried out at over 800° C.

The Blue Diamond® glass-lining technology reduces scaling caused by minerals, corrosion due to hard water and leakage of heat into the atmosphere. It also enhances the strength and durability of the tank.

All A. O. Smith water heaters come with **Blue Diamond®** glass-lining technology, replacing the earlier stainless steel water heaters that were prone to rusting, corrosion and scaling due to the contact between hot water and steel.

This U.S. patented technology provides twice the corrosion resistance compared to industry standards and increases the life span of the tank.

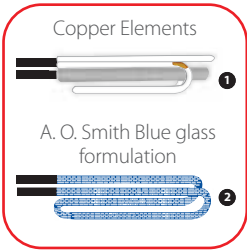

BRILLIANCE LIES IN THE DETAILS

Stronger heavy gauge alloy steel tanks

23% stronger than standard stainless steel or copper tanks; with Blue Diamond® glass-lining technology which provides twice the corrosion resistance compared to industry standards and increases the life-span of the tank

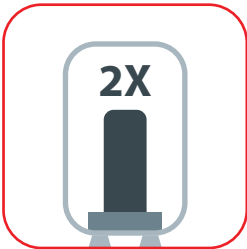

Long Lasting Heating Element

Made of incoloy that does not accumulate calciferous deposits like copper elements. Further coated with a Blue glass formulation that eliminates scale deposition and extends life of the heating element

Glass coated fold-back heating element

Fits the shape of the tank, ensuring that heat reaches the middle and bottom of the tank and gives maximum hot water output

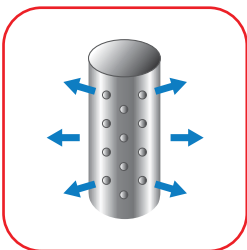

Long-lasting Anode Rod

A customised alloy that works in different Water Conditions, protects the tank and heating element from corrosion, has twice the lifespan compared to a regular magnesium anode

Energy-efficient PUF Injection Technology

The advanced PUF injection ensures uniform and high density foam distribution. Zero gaps between tanks and insulation makes inner container stronger and avoids heat loss

Efficient Inlet Diffuser

Changes water flow direction from vertical to horizontal, breaks down incoming water jet into smaller water streams, ensures minimal diffusion of cold water, supplying more hot water at any point in time

MATCHING EXPECTATIONS WORLDWIDE.

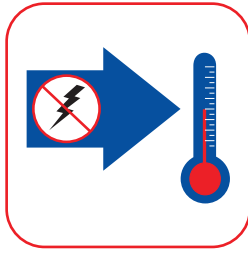

A. O. Smith. **World's No. 1**
Manufacturer of Water Heaters.

Fit it &
Forget it

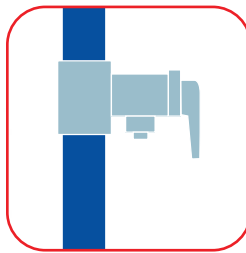

SAFETY IS BUILT-IN

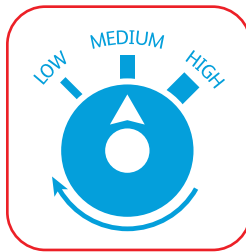

Thermal Cut-Out

If the water temperature exceeds the highest preset limit, the thermal cut-out function automatically cuts off power supply to the water heater

Multi-function Valve

Four levels of safety: Pressure Relief Valve, Non-return Valve, Drain Valve and Vacuum Release Valve

Thermostat

Helps set the hot water temperature and makes the heating element non-operational after the set temperature is reached

Wire Harness and Power Cord

Stringent safety standards like UL 1015 for wires, IS 694 for cables and IS 1293 for plug

POWER OF 1 SERVICE#

A. O. Smith has raised the concept of service to a new high since customers can be sure of getting highly efficient and prompt after-sales service. It is the only water heater company with a dedicated Customer Care Centre with highly-trained company technicians, ready to service the product as and when needed.

1
Hour
Response

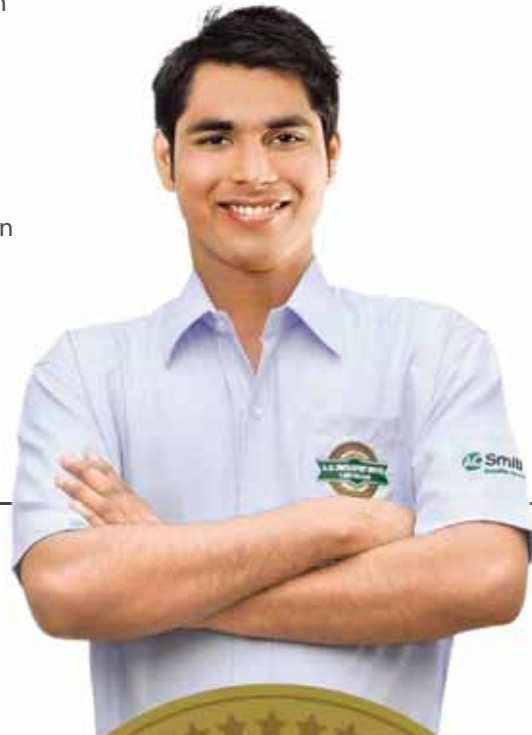

A. O. Smith will schedule a service appointment within one hour of your calling our toll free number (1800-103-2468).

1
Day
Resolution

Once the service appointment is fixed, you can expect a visit from a qualified and trained Company Service Technician on the same day and your problem will be fixed.

1
Time
Fix

A. O. Smith's Company Service Technician carries and replaces any non-working components on the first visit itself assuring you that your water heater will be working fine.

Toll free on
1800-103-2468

A. O. Smith Call Centre Executives are fluent in English, Hindi and regional languages.

#For calls registered at A. O. Smith Call Centre before 4 pm only. Available only in selected cities. For more details please call our Toll Free No. 1800-103-2468 or log on to www.aosmithindia.com.

CUSTOMERS SPEAK

Jitesh H

One of the BEST service experiences I have had, starting with the placement of the order for a water heater to it being fitted at home. Kudos to the technician for a very professional approach and also advising us on how to take care of the water heater. Keep up the good work A. O. Smith.

Bhanuprakash Chundi

A big thank you for resolving all my service requests so well. The service request was addressed in time. I could see that the technician was dedicated to his work. He did his work in a very clean and neat manner and to my complete satisfaction. I am very impressed with the kind of service that I have received and would recommend A. O. Smith to others too.

Nilesh Atre

Two A. O. Smith water heaters were successfully installed on 10th July, 2016 by Mr. Prashant Kumbhar. He has done the installation in a very good and clean manner. Also, he has explained the working of the water heaters very well. On a scale of 1 to 10, we would like to give him 10/10 for this installation. We are fully satisfied with the A. O. Smith installation service and both the water heaters are working very well.

G. Sudhir

I am very satisfied with the service of the A. O. Smith technician, Shri. S. Mahesh. He called me within 1 hour after the registration of the complaint and enquired about the problem. He took prior appointment and came as per the scheduled time. He has done good quality work

OVER A CENTURY OF INNOVATION
