

The InSinkErator Food Waste Disposer should be a part of every kitchen. The InSinkErator invented garbage disposers in 1927, and continues to be the world's largest manufacturer of disposers ever since. A benchmark for style and convenience, if you need an answer to the messy issue of food waste disposal, InSinkErator is the brand to trust.

WHY USE A FOOD WASTE DISPOSER?

Enhance your kitchen, enhance your life. High quality appliances make a real difference to how you equip and use the most important room in the house – your kitchen. Food Waste Disposers offers invaluable benefits for your family, and the community at large.

- NO INSECTS, PESTS, RODENTS**
Insects, pests and rodents breed in the presence of leftover food waste. Using a food waste disposer eliminates this possibility.
- NO ODOUR**
Timely disposal of peels or leftover food means less smelly kitchens.
- CLEANER KITCHEN**
Immediately dispose food waste while cooking and after eating. No leftovers, no mess, no waste of time cleaning and winding up.
- CLEANER COMMUNITY**
Food waste disposers ensure that wet & dry waste is segregated. They prevent roadside littering; reduce expense of collection, transportation of food waste, and reduces use of plastic garbage bags.

ADVANCED TECHNOLOGY

QUICKLOCK™ SINK MOUNT
"twist-on, twist-off" sink mount makes installation fast and easy

SOUNDSEAL™ TECHNOLOGY
Anti-Vibration Mount™ Quiet Collar™ & Sound Limiter™ insulation technology.

MULTIGRIND™ TECHNOLOGY
3-stage design makes quick work of both hard and fibrous foods.

DURADRIVE™ INDUCTION MOTOR
Powerful, heavy-duty motors ensure high performance and long life.

POWERBOOST™ MICRO PROCESSOR
Delivers more power to boost the grinding capability.

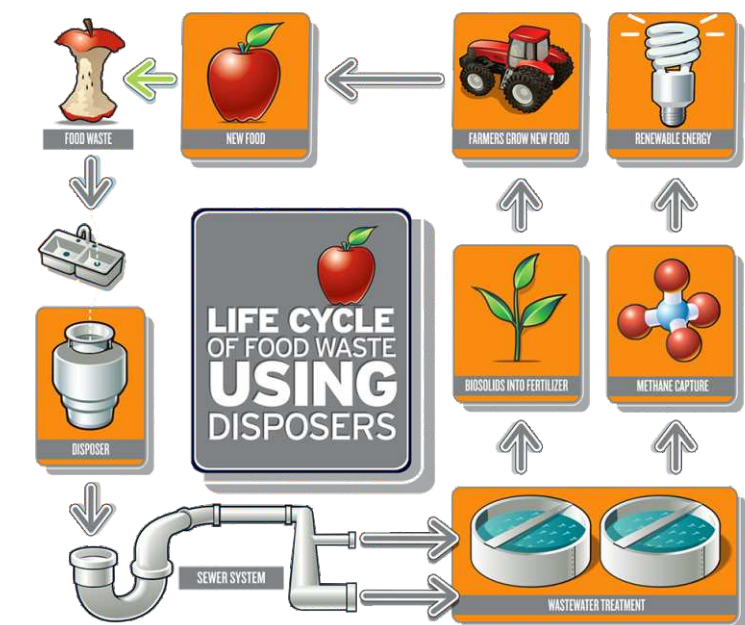

Cut-away of Model Evolution 200.

SAFE ON THE SEPTIC

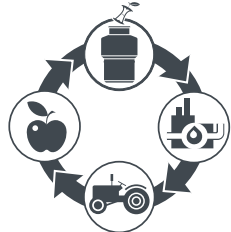

InSinkErator Food Waste Disposer have always been safe for properly sized septic systems. For example, if your system is sized for a dishwasher or clothes washer, it can handle a disposer. After all, a disposer uses only about as much water per day as one flush of a toilet.

ENVIRONMENTAL BENEFITS

Each year in India tonnes of food waste is trucked to landfills. Once there, it quickly decomposes and produces methane, an environmentally harmful greenhouse gas at least 21 times more potent than CO2. Our food waste disposers provide a convenient and environmentally friendly alternative to transporting leftovers to landfills. Plus, capable wastewater treatment plants can even recycle food scraps into energy and fertilizer.

Description of wastewater treatment plant with anaerobic digestion, co-generation and beneficial reuse of bio-solids.

FEED A DISPOSER. STARVE A LANDFILL.
